Embassy of Albania

His Excellency Mira Hoxha

Gracious Sir,

Please allow us to inform Your Excellency about the foundation of the representation of the real and legal Hungarian State, the Republic of Hungary with the name "Representation of the Republic of Hungary".

In Hungary on 1st of January, 2012 the members of the Parliament violating their oath, violating the Hungarian Constitution, and were contemptuous of the right of the Hungarian Nation, created a new state which named to "Hungary" to deceive the Hungarian People as they knew very well that they do not distinguish between the country and the state. They also deceived the the whole world as well, since the deceived people did not object. The purposes of this attack against the Nation was to eliminate the 1,100-year-old Hungarian State, and abolish the sovereignty of the Hungarian People. This intent is proved by the content of the Fundamental Law and its Intermediate Rules.

But this Fundamental Law, which established this state (named to "Hungary") constituted invalidly, violating the effective Constitution, the Constitution of the Republic of Hungary, because the National Assembly had no right to create, it was only right to modify the existing Constitution. Since the "Fundamental Law of Hungary" is so invalid and thus did not repeal the effective Constitution (the Constitution of the Republic of Hungary), therefore the effective Constitution remained in force, and the 1100-year-old Hungarian state, the actual name of the Republic of Hungary, continued to exist. The state created by an invalid "Fundamental Law of Hungary" is nothing more than an invalid non-Hungarian private state, which is being maintained illegally, and had been occupied the legal Hungarian state, pretending as if it were the valid and legal. The objectives of this private state and the details of the deception would be too long to describe here, but we can tell what methods they are using in a personal conversation.

We would like to draw Your Excellency's attention to the fact that the Republic of Hungary is the legal and effective Hungarian State, which currently remained without representation on 6th of April, 2014. Recognising this, we established the Representation of the Republic of Hungary, which from now officially and exclusively represents the legal and effective Hungarian State the Republic of Hungary.

For information we attached to this letter the Founding Statement of the Representation of the Republic of Hungary with the legal justifications in its appendix.

For security reasons please reply by courier to our temporary address above.

Dated on 08th of September, 2015.
